1. The Declaration of Prior Invention in the United State under 37 CFR 1.131 is sufficient to overcome the Layne et al. (6,398,803) reference. Therefore, the previous rejection of the Office Action mailed 9/30/04 is withdrawn.

### **EXAMINER'S AMENDMENT**

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Stephen Cannavale on 3/21/05.

The application has been amended as follows:

Claim 26 (currently amended): A method of forming a stent-graft prosthesis comprising the step of:

forming a first PTFE tubular structure;

positioning a stent over said first PTFE tubular structure, said stent having a tubular configuration formed of a plurality of turns of a helically wound wire, each of said turns including successive upper and lower wave-like peaks;

forming a second PTFE tubular structure over said stent; and

Art Unit: 3731

exposing selective ones of said upper and lower wave-like peaks through said second PTFE tubular structure, wherein exposing includes placing a plurality of slits through said second PTFE tubular structure at a location aligned with said selective upper and lower peaks of said stent; and extending said upper and lower peaks of said stent through said slits.

Claim 28 (cancelled)

3. The following is an examiner's statement of reasons for allowance: claims 26, 27, 29-34 are allowed because:

The Declaration of Prior Invention in the United State under 37 CFR 1.131 is sufficient to overcome the Layne et al. (6,398,803) reference.

Martin et al. (6,042,605) disclose an inner tube a helical stent and an outer tubular structure wherein the peaks of the helical stent are not cover by the outer tubular structure. However, Martin et al. fail to disclose placing a plurality of slits through said second PTFE tubular structure at a location aligned with said selective upper and lower peaks of said stent; and extending said upper and lower peaks of said stent through said slits.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
